We have a troubleshooting request in to our SharePoint IT person and we are still awaiting a response. No one else has been reporting access issues so not sure if it's something unique to your account or exactly what is going on. I'll let you know as soon as our IT department can look into it.

Thanks,

Marc

Still no access. Sometimes I get the same error, and sometimes it locks up forever:

Lynda,

Marc is out of the office today, so I am sending this in his stead.

On behalf of Atlantic Richfield, Amec Foster Wheeler is submitting the *On-Property Focused Remedial Investigation Work Plan Amendment No. 11 Supplement No. 1 – Task Sampling and Analysis Plan for Surface Water / Groundwater Interaction Investigation at Upper Leviathan Creek* for the Leviathan Mine Site in Alpine County, California. A hardcopy will follow.

This document is available for immediate download on the Leviathan Mine SharePoint Site via the hyperlinks provided below. Please let me or Marc Lombardi know if you have any issues accessing the SharePoint Site.

Because of the large file size and varying download speeds of the individual SharePoint Site users, we have posted this document to the SharePoint Site in two different ways:

- a) For those with fast internet connections, we have posted the file as one single PDF document. This document is in the file folder labeled “Large File Version” at the end of the file folder name.
- b) For those with slower connections, we have segmented the document into file sizes of approximately 15MB or less. This version of the document is in the file folder labeled “Multiple Small File Version.”

The document is stored on this [site](#). Click here to directly access the [folder](#) where these folders/documents are stored. Click on the links below to access each folder/document individually:
